

My GPS or God's "GPS" by VBOJR 4/4/17

It was late on a dark week night
The right street signs not in sight.
I was on unfamiliar city streets
Nervously I shifted in my seat.

Pulling out my GPS to find my way
Go right, then take a left, easy I say.
Turned right I did, then a sign so clear
Do not enter! So now what! Oh dear.

Lost in the city with no help in sight
GPS didn't help me with my lost plight
Father's Angels to show me the way
You are my only hope and my stay.

GPS mistaken backing up into a lot
Turning around new directions I got
So I turned left street sign now in sight
Police on my left, and one on right!

Are you lost in your dark city of life?
Your GPS only brings on more strife?
Father God has a new plan for you today
Come, His GPS always leads to the way.

God has a GPS? You might ask.
Holy Spirit in you; He's up to the task.
His job is to lead us on Life's road marked **Right**.
Our job is to follow never letting Him from **Sight**.
